

BOARDS SWING INTO ACTIVE NRA CONTROL

Sweeping Changes To Be Discouraged By Administration

Washington, Sept. 28.—(AP)—Administration assurances that "sweeping changes by sudden fiat will be discouraged" went out to business today from the new multiple-headed Blue Eagle Administration.

This word came directly from Donald R. Richberg, lawyer who helped mold NRA policies in their infancy, and now directs an administration committee specially created to advise Mr. Roosevelt on Nra and other recovery policies.

Simultaneously, Clay Williams, a wealthy 50 year old industrialist, was chosen to head the national industrial recovery board now vested with the business-holding powers once wielded by Hugh S. Johnson.

Tightens Reins

Over both groups—Policy making and executive—Mr. Roosevelt tightened reins of personal supervision in guiding NRA toward next winter's legislative gauntlet.

Richberg's assurance to industry that no sudden upheavals need be expected, was given at a crowded press conference called, he said, to avoid "misunderstanding and misinterpretation" of the relationship between his emergency industrial committee and the new NRA board.

"The most important service at the present time in NRA," he said, "is to provide continuing assurance against sudden or sweeping changes of policy, assurance of deliberative action and full discussion and an opportunity for those involved to be heard. The absence of sweeping changes applies to personnel as well as anything else."

Then Richberg, speaking emphatically as the reporters pressed close to his desk, added:

"The president will decide the policies. Our committee couldn't veto a decision by the industrial recovery board, but I would say the president, through our committee, could."

With a smile, Richberg said his industrial committee will make the recommendations as to the course of NRA directly to the president, but will intrude very little advice to the board itself.

The suddenness of the creation of the new NRA staff, however, had evidenced Mr. Roosevelt's desire for pressing his reorganization plans. Sidney Hillman and Leon Marshall, the two labor members, were the only ones in the city today except for the ex-officio pair—Blackwell Smith, NRA legal advisor, and Leon Henderson, economic advisor.

Hillman and Marshall in a long distance telephone hookup with Williams and A. D. Whiteside, the two industrialists, elected Williams chairman and Marshall executive secretary. The fifth member—Professor Walton Hamilton of Yale—could not be reached because he was on a train hurrying to Washington.

Williams' selection as chairman, after being the number one member named by Mr. Roosevelt, was regarded as an obvious presidential choice. In some quarters it was considered significant that with two labor men, two industrialists and a disinterested fifth member it was a businessman who received the top post. The new board is expected to hold its first formal meeting Tuesday.

VET FIREFIGHTER DIES

Paris, Ill., Sept. 28.—(AP)—Perry Cook, 85, a member of the Paris fire department for 57 years at the time of his retirement seven years ago believed to be the oldest active fireman in the state, died here today; fellow fire fighters will be in charge of the funeral tomorrow, and the body will be carried to the cemetery on a fire truck. A daughter, Mrs. Myrtle Perry, Chicago, and a son, Bert Cook, St. Louis, survive.

Shirley Temple Rejects Offer Of \$4,000 Week

Hollywood, Calif., Sept. 28.—(AP)—Shirley Temple, 6-year-old movie star, has received and has turned down an offer of \$416,000 for her professional services for a period of two years.

Her father, George F. Temple, Los Angeles bank manager, tells the story.

"A person whose name I do not wish to disclose made me the following offer. He said he would pay Shirley \$4,000 a week for two years, and would bind the contract with \$50,000 in cash, payable at once."

"I told him Shirley was under contract to the Fox studio. Her salary reportedly is \$1,200 a week," he said he would "handle" the contract.

He asked him what he figured to make on the deal, and he said he estimated he would gross \$7,500 a week, and therefore would draw about \$3,500.

"His plan was to use her in radio broadcasts, personal appearances and boost her earning capacity in the movies."

UNEMPLOYMENT REMEDY FOUND BY FEDERATION

William Green Says 30-Hour Week Will Solve Problem

By William Warren, Associated Press Staff Writer.

San Francisco, Sept. 28.—(AP)—Directly defying William Green, president and the executive council of the American Federation of Labor, the building trades department of the A. F. of L. refused today to reconsider its refusal to readmit three big international unions to membership in the division.

Green, referring to the position of the building trades body as illegal, indicated the fight force readmission of the three unions to the building trades department would be carried to the floor of the Federation convention which opens here Monday.

This, the first major break in labor's ranks assembled for what leaders said would be a crucial gathering, occurred just after Green had arrived and proclaimed the intention of the Federation to point the way out of the unemployment situation.

Frutless Effort.

Green went before the Building Trades convention in his fruitless effort to have it undo the yesterday's action by the Bricklayers and the Electrical Workers Union were denied representation in the department sessions.

Pleading for readmission of the three unions, which have a membership of 400,000, Green pointed out the Federation's executive council had voted unanimously last June in favor of readmission. He warned the building trades their refusal was in violation of Federation rules.

A motion then was made to suspend the rules and refer the readmission question again to a committee. It was voted down.

Green bowed, smiled and left the floor. He hinted there would be action by the Federation later.

The three unions withdrew from the building trades department several years ago. The department's re-affiliation committee held that their readmission would disrupt department harmony and the convention upheld that position.

Delegates representing the Teamsters, the Marble Workers, the Operating Engineers and Hod Carriers Unions left the department convention floor when the action was taken yesterday. They threatened to bolt, but there was no further manifestation in this direction today.

Green, in predicting the A. F. of L. will point the way out of the unemployment situation, said 25,000,000 American workers were depending upon his organization to offer a remedy for unemployment "and to insist upon its being accepted and applied."

The 30-hour week, a wider distribution of industry's earnings through higher wages, the strengthening of the collective bargaining principle and other social factors will be the Federation's weapons against unemployment, he said.

Green estimated the American unemployment at about 10,000,000 including about 2,000,000 working on government projects. The other 8,000,000, he said, were without work of any kind.

Green said the 30 hour week would spread work considerably and that higher wages would increase purchasing power and thus create more jobs.

PLANS INSPECTION TRIPS

Washington, Sept. 28.—(AP)—Secretary of War Dern announced today he planned to make inspection trips to projects on both the upper and lower Mississippi river as soon as possible but he could not yet set a definite date for his visits.

WRECKING CREW HIRED BY UNION OFFICIAL, CLAIM

Man Admits He Was Given \$200 To Hire

Sluggers

Bulletin

Chicago, Sept. 28.—(AP)—Detective Chief John L. Sullivan tonight said that Ralph Stoltzmann, 35, president of the Amalgamated Association of Street, Electric Railway and Motor Coach Employees of America, would be held for the slaying of James Kelly, non-striking bus dispatcher, fatally hurt in violence attendant to the extended bus strike.

Stoltzmann surrendered a few hours after Earl Renner, 40, of suburban Elmwood Park, confessed, police said, that Stoltzmann approached him asking him to obtain "sluggers" to use in the strike affecting the Chicago Motor Coach company. Renner, a former street car conductor, Police Capt. Daniel Gilbert said, stated Stoltzmann paid him \$400.

The youthful appearing union leader declared Renner's statement was "ridiculous" and said: "where would I get \$400?"

Stoltzmann surrendered in custody of his attorney not long after police announced their search for him.

Chicago, Sept. 28.—(AP)—Daniel Gilbert, head of the state's attorney's office, tonight said a "high official" of the Bus Drivers' Union had been named in a confession as the man who hired a "wrecking crew" to assault bus drivers and damage property in the extended bus drivers' strike.

The official named was the object of a search but police said he apparently disappeared a few days ago, at the time that James Kelly, non-striking bus dispatcher, was fatally shot and beaten by thugs.

Gilbert said Earl Renner, former street car conductor, admitted the official gave him \$200 on two occasions to hire "sluggers."

An unusual development which authorities said took place in the grand jury room was a statement from an "Edward Randall," who police said previously had admitted being in the group which attacked Kelly, that his name really was Edward Nackl, and that he was a street car conductor.

Nackl told them, the authorities were quoted as saying, that he changed from his conductor's uniform to street clothes and joined the four men who had planned the assault on Kelly.

OFFICERS CLAIM MARVIN DAY HAS CONFESSED CRIME

South Bend Youth Smiles As He Rides Back To His South Bend Home

Memphis, Tenn., Sept. 28.—(AP)—but with a smile on his face, Marvin Day, alias Marvin O'Day, rode back to his Indiana home tonight to the scene of the brutal attack and slaying to which officers say he has confessed.

Day, who says he is 16, but who is described by officers as possibly 20 or older, was placed in an automobile for the long drive to South Bend where 5 year old Maxvaine Appel was brutally attacked and slain four years ago last August.

Capt. Frank Glisson of the Memphis police homicide bureau was understood by newspapermen to have said shortly after Day left that Indiana officers cast doubt on Day's confession, but later Captain Glisson said he had been misunderstood.

However, other officers at the police station, including Sam Phillips, secretary to Inspector Will T. Griffin, said they heard sergeant M. A. Whitmer and detective Ed E. McCormick, South Bend officers, say the confession may have been "a product of Day's imagination."

Some of the officers hold to the belief that Day is no older than he says. They point out that, if his statement is true, he was just 12 years old when the crime was committed. Phillips said he heard the Indiana officers say some of the physical facts of the crime belied the youth's confession.

The South Bend officers also were heard to say the youth showed little knowledge of the crime.

Day was arrested at a rooming house here two days ago on word from Jefferson City, Mo., police that he had told a fellow transient at Jefferson City recently that he was wanted at South Bend in connection with the killing of a girl.

IDENTITIES SUSPECTS

St. Louis, Sept. 28.—(AP)—Dr. Isaac D. Kelley, socially prominent St. Louis physician kidnapped in 1931, testified today he observed Angelo Rosegrant, on trial for the crime, standing in the hallway of a house where the witness was confined by a gang.

Dr. Kelley, held eight days and released without payment or ransom, identified Felix McDonald, another defendant in the case, as one of the kidnapers who on one occasion threatened him with bodily harm.

Metal Spoon Sharpened to Knife-Like Edge is Found In Bruno Hauptmann's Cell

Husband Will Have To See Wife If He Plans Suicide

By Francis A. Jamieson (Copyright, 1934, By The Associated Press.)

New York, Sept. 28.—Sharpened to a knife-like edge, a metal spoon was found today in the cell of Bruno Hauptmann, shortly after his counsel said a psychiatrist would examine the alleged Lindbergh ransom extortionist, presumably to determine the possibility of an insanity defense.

To prevent any attempt at suicide, or escape, Sheriff John Hanley of the Bronx, doubled the guard outside Hauptmann's cell after finding the spoon.

Accompanying this spectacular development, a close friend of the German ex-convict, Hans Kloppeburg, was picked up and questioned by District Attorney Samuel Foley.

Kloppeburg's picture was in the Hauptmann album and he had been sought several days.

Asked what he thought were Hauptmann's intentions with the spoon, Foley said: "You may use your imagination."

Spoon Stolen

The spoon was stolen from the breakfast tray. It was broken into sections. The spoon had been whetted down to a keen edge, evidently by rubbing it against the steel slats of the cell.

Its absence from the tray noted in the kitchen sometime later, the prisoner was taken to another cell. Search was made at once. The sections were found in the drains of the toilet and wash-basin.

At about the same time, Attorney James Fawcett, Hauptmann's counsel, disclosed he had instructed a psychiatrist to examine the prisoner.

"I intend to call in a doctor and a psychiatrist, Fawcett said, "to look over my client as part of our defense. The examination will be made tomorrow in the jail. I am going to be guided by their advice."

"Does that mean," Fawcett was asked, "that insanity may be the defense?"

"You can draw your own conclusions," was the reply.

The fact that Hauptmann is separated from other prisoners in the Bronx jail, and is on a separate tier by himself, apparently allowed him to work with amazing speed in fashioning the spoon into a weapon.

Hauptmann, for the first time since his arrest more than a week ago, spent the whole day in his cell. The usual trip to Foley's office for questioning was omitted.

Through his counsel, he declared anew his innocence, not only of the charges of extorting the ransom money but of the actual kidnaping and death of Baby Charles A. Lindbergh.

Answering a list of questions, Hauptmann stated that he never saw Gleau, who had joined in the hastily formed highway patrol, saw him and a hitch-hiker he had picked up.

Wells made another break for liberty when the two posmen saw him. Reed stopped the fugitive with a bullet through his shoulder. Wells was brought to St. Mary's hospital, where his victim lay near death, and Wells' companion, who said he was Barney Wunderlee, 21, of (1207 N. Lee street) Bloomington, and was hitch-hiking to Watseka, was ordered to report to the jail.

Trautau was shot twice through the chest, one bullet passing near his heart.

The shooting occurred as the prisoners were about to receive their noon meal.

Wells had slipped away from the line of prisoners as they marched from cells to the bull pen and had secured two pistols from a locker in the corridor. As Trautau emerged from the kitchen carrying food, Wells faced him with the pistols. Trautau leaped for Wells, who fired point blank twice, each bullet hitting the officer.

Wells turned and fled, brushing aside Mrs. Albert Goodknecht, wife of the sheriff, who had gone downstairs to investigate the shots.

Wells was one of four men arrested in Indiana and brought here to face charges of robbery. The other three are still held.

The interview conducted through Fawcett was the prisoner's first extended discussion of the charges against him.

The questions were written out by newspapermen. Fawcett took them to Hauptmann's cell.

Questions and answers follow: "Do you still claim you are not guilty of extortion?"

I am innocent of everything.

What word do you want sent to your mother in Germany?

Tell her that I am innocent and that I love her.

What was your reaction to the extortion indictment voted against you?

I cannot see how any grand jury could accuse me of anything.

Were you nervous as you appeared in court yesterday?

I was nervous.

What are your thoughts about your wife and child?

I love them dearly and hope to return to them soon.

Do you still feel confident of acquittal?

Yes, I do.

Did Fisch indicate by any hint that he was mixed up in the kidnaping?

(Gladys Fisch, a friend, died in Germany. Hauptmann said he left the ransom bill among his belongings at the Hauptmann home.)

No.

Did you suffer a leg injury early in 1932, and if so, what was the cause and where did it happen?

No.

Did you spend the money with the knowledge it was ransom money?

No.

Did you ever see the Lindbergh baby, dead or alive?

No.

Among the Murrayville visitors in the city yesterday was Elmer King.

Three Families Have Resumed Fight For Heiress

New York, Sept. 28.—(AP)—Mrs. Gloria Morgan Vanderbilt was described today as a neglected and irresponsible mother not to be trusted with the custody of her 10-year-old daughter as the Vanderbilt-Morgan-Whitney families resumed their court fight for possession of the heiress to \$4,000,000.

Mrs. Vanderbilt's mother, Mrs. Laura Kilpatrick Morgan, declared in an affidavit that her daughter was an unsuitable guardian for Gloria Laura Morgan Vanderbilt and recited a chain of allegations to support her contention.

"Mrs. Vanderbilt devoted practically no time whatever to the child," charged another sworn statement by Emma Sullivan Kelsch, the child-heiress' nurse.

Taught to Make Cocktail.

Mrs. Vanderbilt endeavored to show Gloria how to make a cocktail and tried to force the child to drink orange juice although all liquids are forbidden by the doctor."

The charges were laid before Justice John F. Carew in a closed hearing on Mrs. Vanderbilt's habeas corpus writ to obtain custody of the daughter.

Mrs. Morgan intervened and asked the court to award guardianship to Mrs. Harry Payne Whitney, the child's paternal aunt, who now has the possession of the girl and was charged with virtually kidnapping her by Mrs. Vanderbilt.

The hearing was adjourned for trial Monday.

"Little Gloria was like a poor orphan; she was not wanted," the child's grandmother declared. "I recall one day in Biarritz where we spent several summers. I took Gloria to my daughter and she deliberately pushed her away and insisted that I take her away."

"On another occasion when little Gloria happened to get near her, my daughter pushed her away. Little Gloria screamed and cried and pleaded with me not to let my daughter hurt her. At this particular time Gloria was a very sick child, suffering with a fever and a cough."

Recounting Mrs. Vanderbilt's frequent absences abroad, while the daughter was being cared for by relatives, the grandmother said:

"I do not know of any instance during this time, and in fact any time, in which my daughter expressed concern over the baby's welfare or showed any mark of affection for her."

When she remonstrated with her daughter's insistence on dismissing Gloria's nurse, Mrs. Morgan averred that Mrs. Vanderbilt replied:

"I don't care if she (Gloria) cries, and for all that she can bawl until her eyes bulge and drop out of their sockets."

Miss Kelsch, the nurse, quoted the child-heiress as saying "she felt so unhappy" with her mother "that she would rather jump out of the window than stay there."

Mrs. Whitney denied that Gloria had been "virtually kidnapped" or that she was being held against her will.

P. S. MCGLYNN PUBLISHER OF MOLINE, DIES

Had Been Active in Newspaper Work For More Than 71 Years

Moline, Ill., Sept. 28.—(AP)—Patterson S. McGlynn, 84, publisher of the Moline Dispatch for 49 years, and active in newspaper work for over 71 years, died today at his home after an extended illness.

McGlynn, one of the oldest working newspapermen in the United States, had been continuously engaged in newspaper enterprises since the age of 13 when he started work as a printer's apprentice in Washington, Iowa.

After working on Davenport, Ia., and Chicago papers, McGlynn purchased a half interest in the Moline Dispatch in 1885, then a small paper with circulation of a few hundred.

In the intervening years he built the newspaper into an organ with circulation of about 15,000. McGlynn worked in every department of the paper, retiring ten years ago as editor to assume the title of publisher.

Because of his early training as a printer, McGlynn was widely recognized as an authority on newspaper "makeup," and he was also a founder of the Inland Press Association.

He was an early member of the Associated Press, and was a regular attendant at state and national conventions of the organization. McGlynn was a member of the First Congregational church, of the Moline Rotary club, and was a thirty-second degree Mason. He was active in many other civic organizations.

McGlynn was born in Unionville, Conn., in 1850 and came west with his parents when still a child.

His widow survives, as do two nephews, L. R. Blackman, Moline, and B. H. Ogden, Chicago.

Funeral arrangements were not announced.

The Farmers Win

Illinois farmers won a real war this summer, in which they saved for themselves some \$3,500,000 worth of corn. Their enemies were the chinch bugs, which swarmed over the state in the greatest infestation in half a century.

In their war on the bugs Illinois farmers erected 22,408 miles of barriers, each mile of barrier is believed to have saved 18 acres of corn. The figures on the war and its results have been given out by John T. Frison, head of the state Natural History Survey.

The federal government furnished material for 7,000 miles of barriers. The Illinois Emergency Relief Commission furnished about 3,000 miles. The rest was supplied by the farmers themselves. The estimate of the value of the corn saved has the cost of the war deducted.

While ground cracked from drought and baked under intense heat, few city dwellers realized that farmers were waging this war. It was really a most important fight, the winning of which has meant cash to the winners. It took hard work and constant watching to trap and destroy the myriads of bugs, but the farmers are to be congratulated on their victory. It means greater prosperity for the state.

It is to be noted that the bulk of the cost was borne by the farmers. The government and the relief commission gave help where it was needed, but those who could finance their own battle did so, and theirs will be the profit when the corn crop is sold. The winning of battles such as this means better living and a more constructive program, far more important than could ever come from a battle in which human life is sacrificed. The enemies destroyed were not other human beings, but real foes, with no economic or spiritual value to society.

Winter Stores

From southeast Missouri comes news that the cane crop is fair and that the folks will have a good supply of sorghum. At least there will be enough to cover most of the griddle cakes fried in that section this winter, and there may even be some to sell. A barrel of old-fashioned sorghum in the cellar is something that would not be hard to take, a pitcher full at a time.

In some sections the bees have been busy. The honey crop will be a bit short on account of the drought. The bees had to travel farther and be satisfied with lighter loads, but they got enough for themselves and also for a few pails and sections for human consumption.

Apples may be available also, to be eaten during long winter evenings. They will serve to reduce the incomes of physicians and exercise the teeth of consumers. It is said we eat so much stuff that is already chewed that we make work for the dentists.

Farmers who have been able to salvage some of their hogs and who can really afford to keep them for meat, will doubtless have plenty of sausages "fried down" and hams hanging in the old "smoke" house. We recommend a good dog to keep the thieves away and eat the "scraps" from the table, if any.

When it's all said and done, the winter stores are not so scarce. If we can afford to pay processing taxes and are not discouraged by the mounting cost of food, we really ought to live well this winter. We are sure of nearly everything but cider and doughnuts, and we might enjoy these luxuries also when the season is right.

Back To The Kitchen

Some years ago an indiscreet composer produced a song which he entitled "Come out of the Kitchen, Mary Ann." The women took him seriously. They came out by thousands, to enter factories, professions, the movies and business. They have been coming out of the kitchen ever since, and the pots and pans have sometimes been sadly neglected; also the gastronomic desires of the male population.

In this country nothing much has been said about it, tho some people have wondered whether the unemployment problem could not be partially solved if women returned to the kitchen and the home and left their husbands, fathers and brothers to supply the family income. The situation is rather delicate, as women have attained a rather powerful hold on the world of affairs. No one wants to incur the wrath of feminine workers in the world of affairs.

But in Italy things are different. Mussolini, who evidently has no fears of adverse feminine votes or tongue-lashings, flatly declares the women must go back to the kitchen. He is pushing them out of the factories and shops back into the homes. Entrained behind a fascist press that moulds public opinion the way he wants it, Mussolini is making progress and Italian kitchens are taking on new life. The men are once more coming home to well-cooked meals.

Mussolini hopes by this reduction of female wage earners to increase the number of jobs for men. Unlike the soviet, where everybody is said to be employed, the fascist state has an unemployment problem. Furthermore, Mussolini hopes to advance his program of increasing the Italian population. He believes women should not only return to the homes, but also rear families. He has no use for the doctrines of birth control which find fertile soil in an economic society where women desert the home and go out to earn their own living.

Turtle Racing

A citizen of Mount Vernon, N. Y., recently discovered in his garden a turtle that he says beat his terrier in a race around the yard. He claims the turtle comes from the best Virginia racing stock and is a direct descendant of the tortoise that beat the rabbit.

In Miami, Fla., the children have found a new sport. They harness racing turtles to small express wagons and hold racing carnivals. No protest flags are used, as the only ones not satisfied are the turtles. Some of these turtles are said to be self-banking; they shorten their feet on one side when rounding a curve. Only a hill-bred hound dog can compete with them, by which we mean a dog that has learned the trick of shortening his legs on one side while chasing rabbits around the hills.

Some of this information about turtle racing we are inclined to doubt. We have seen turtles race, but they had to be started under an alcohol lamp, and they had numbers on their backs. We never won anything, but we lost it all.

As for the tortoise that beat the hare, it should be remembered that the cotton-tail stopped for a nap and allowed the turtle to pass him up. Anybody who goes to sleep on the job must expect to lose. We have heard of people who went to sleep at steering wheels and lost their lives.

Reunion Fatal

Two foreign-born residents of the east had not seen each other for 20 years. They had grown up in a small town in the "old country," but had become separated when each came to America to seek his fortune.

Recently they met at Scott's Run, a small West Virginia mining town. They held a reunion and started celebrating. Finally they walked to the railroad track and sat down to talk over old times. They were enjoying the reminiscences, and little realized what was about to happen.

So engrossed were they in conversation that they did not see or hear the approaching train. The engineer saw them and blew the whistle, but the blast failed to penetrate the mist of memories with which the two had surrounded themselves. Now both men are somewhere in eternity.

Second Gear Hills

An automobile company is conducting a survey of all the hills in the United States. The new main highways have almost all been engineered so beautifully that a car can go up or down hill in high gear, but there are still a good many bad hills on the secondary roads and the company proposes to find out all about them. It asks every distributor and dealer: "Is there any hill road in your territory that has not to the knowledge of local authorities, been climbed by an automobile with the transmission in high gear throughout the climb? If there is such a hill, give the name, location, gradient, length, type and condition of surface, number and character of turns."

Not only will road maps conveying this information be very useful, but such a survey may lead, after a while, to lower taxes on gas. When road-building has reached the point where all the roads in the countryside are high gear hills, surely the long-suffering gas-taxpayer may be given a chance to catch his breath.

White House Is Topsy-turvy for Roosevelt Return . . . Nome to Rise Again . . . Wallace in New Mixer Role . . . Hoovers of Crime Detection Fame Are Brothers . . . Textile Union Moves to Washington.

By WILLIS THORNTON Journal-Courier Washington Correspondent

Washington, Sept. 28.—When the president returned to 1600 Pennsylvania avenue from his Hyde Park sojourn, he found it in even worse confusion than when he left, and learned further that the remodeling will not be finished until after Dec. 1.

Three weeks of rainy and miserable weather have set back the work, together with the other delays which seem to dog all construction jobs.

Meanwhile, his house looks a good deal like your house or mine when there's an overhauling going on. That is, terrible.

No entertaining can be done at the White House until the construction work is finished for the president's office is now temporarily in the Blue Room, right in the center of the house.

The equally famous Green and Red rooms are being used by the secretarial staff. And the entire wing where the executive offices usually function is a welter of concrete, and beams, dust and wheelbarrows.

Workmen sprawl beneath the majestic elm trees in the yard at noon-time, eating their lunches from buckets. The regular White House servants, ousted from their usual positions at the front door by the police, secret service and clerical help of the office force, hover unhappily in the corridors.

And President Roosevelt, who was to have been in his new office in a few weeks, will now be lucky to get it for a Christmas present.

Wallace Goes Mixing

Secretary Wallace, one of the busiest of the New Dealers, has been trying very hard to get acquainted with his Department of Agricultural personnel. He tried inviting subordinates into his office, and dropping in on them.

Both interfered with his schedule. So now he invites them, section by section, to have lunch with him in the department cafeteria.

He gets an informal fill-in on their problems that way.

Brothers in Crime—War

J. Edgar Hoover, who as director of the Department of Justice's Bureau of Investigation, had a hand in unraveling the Lindbergh kidnaping case, and Dickerson N. Hoover, probing the Morro Castle disaster as head of the Steamboat Inspection Service, are brothers. Both are graduates of the local George Washington University, which claims to have more graduates in the government service than any other.

Another Union in Capital

One of the indirect results of the textile strike was the permanent moving to Washington of headquarters of another big international union. The United Textile Workers of America now follow the United Mine Workers in the move to make Washington the labor as well as the political, business, and financial capital of the country.

Until further notice, the UTW headquarters will be in the Carpenters Building, a sort of auxiliary A. F. of L. building, several blocks from the center, but containing headquarters of several national unions and related labor organizations. . . . General Pershing, who spends a good deal of his time in France, is expected back in Washington in October for a short visit. . . . About that matter of NRA getting too big, as General Johnson himself suggested, it has just approved the code budget for the Fluted Cup, Pan Liner, and Lace Paper Manufacturing Industry.

Nome to Rise Again

Now that the chief of Nome, Alaska, following the disastrous fire, is an accomplished fact it may be interesting to note that there very nearly was any more Nome. A proposal was made to move it to Teller instead of rebuilding.

But it has been decided that the future of the gold sands about Nome warrants rebuilding. It's a logical center for the reindeer industry, anyway, if the gold finally plays out, so Nome will be rebuilt.

It's probable, though, that most of its people will spend the winter in temporary barracks, as it's unlikely that construction materials can be delivered there before winter closes down, preventing departure of ships—that's about Oct. 5-10.

Governor Troy is seeking \$250,000 of public works funds to rebuild at Nome—practically all the government's buildings that went up in smoke. The relief and rebuilding plans are all clearing through the new Division of Territories and Island Possessions.

By the way, if you're figuring on moving to Alaska pretty soon as a part of that colonization project to move 500 families onto subsistence homesteads around Anchorage, don't sell the piano yet.

There's a lot of work to be done on that before the plan takes shape, though a program for further developing Alaska, especially if the Asiatic airmail service goes through, is being studied.

CARD OF THANKS

We wish to thank all friends who rendered assistance in any manner during the illness and after the death of the late Thomas E. Jewsbury. The floral tributes and use of cars were especially appreciated by the family.

TRUCK DRIVER SAYS

APPLES WERE STOLEN

Paul Friend of Kilbourne pulled into Jacksonville Thursday night about 11:30 o'clock with a truck load of apples, and parked on N. Main St., near the square. When he returned to the truck at 2 a. m. he discovered a quantity of apples had been stolen. Friend reported the theft to police, estimating that about 6 bushels of apples were missing from the truck.

Four Held in Probe of Chicken Thefts

Four men are being held in custody of county authorities here for investigation of the theft Wednesday night of a rim, the case and tube from the premises of Porter Brummett, and the theft of four chickens belonging to C. C. Davis, east of the city.

The men held are Lonzo Dixon, Bill Worley and James and John Flynn. Dixon was questioned Friday in the office of State's Attorney W. H. Absher, and is said to have confessed the thefts and to have implicated the other three.

According to Dixon's story he got two of the chickens. The Flynn brothers were taken into custody Friday. Dixon and Worley are also being held.

B. & P. Club Studies Important Problems

Great interest is being shown in the department of International Relations of the Business and Professional Woman's club locally as well as nationally. According to Miss Rose Ransom, chairman in the Jacksonville club, the interest in this subject has grown and at the conventions it is very evident that economic and political problems have come to the fore. Twenty-seven states reported that practically all of their local clubs cooperated during the year with other civic and educational groups in their localities in international relations work.

These statistics show that the Business and Professional Woman's club is reaching the general public and is developing sound public opinion. The far East, disarmament, the status of business women in other countries and conditions affecting them, the League of Nations, the World Court, and America's foreign policies are still the most popular topics for address, round table and study group discussions. Such subjects as Hitlerism, Communism, Fascism, world peace, problems of foreign born in local city, the money question and the munition maker, tariffs, new political philosophies and their effect on world peace, and imperialism are subjects in which the national are vitally interested.

Many suggestions have been made for entertaining programs, among them as decorations—using maps as decorations, and study groups from foreign countries and dolls in foreign costumes for table ornaments. A popular type of meeting is the debate, pageants, roll-call, songs and dances of foreign peoples, illustrated lectures. The history and singing of Christmas carols from other countries formed a part of one club program.

Miss Ransom has interesting plans for an outline of work in the international relations department for the local society, which will soon be carried out. She also has plans for a program, which will be given at a regular meeting later in the year.

The National organization asks that the 1934-5 schedule include suggestions as outlined by the Cause and Cure of War as a fine basis for the coming year and also asks that members keep in touch with the European situation through broadcasts.

Plan Reemployment Service in Greene

Ralph Easley, head of the district office of the National Re-employment Service, and Roy Hapke, rehabilitation officer for ex-service men, went to Carrollton Thursday night to appear before a meeting of the Greene County American Legion. Easley is planning to establish a county branch of the reemployment service at Carrollton.

He explained the distinctive features of this service and its advantages. His explanation was well received by the audience, and the Legionnaires looked with favor on the new service branch. Plans for its establishment will go forward at once.

DR. A. H. KENNEDREW DEFENDANT TO U. S. NARCOTIC WARRANT

Springfield.—Dr. Alanzo H. Kennedrew, 719 1/2 East Washington street, well known local colored physician, yesterday was arrested on a bench warrant charging violation of the Harrison narcotic act. Deputy United States Marshal A. T. Curry arrested Dr. Kennedrew, and he furnished bond of \$2,000 before U. S. Commissioner Robert G. Moore.

Dr. Kennedrew was indicted last week by the federal grand jury at Quincy, but the indictment was suppressed. He will be arraigned soon along with other persons recently indicted and who are at present free on bail.

Dr. A. H. Kennedrew is a former resident of Jacksonville, and for a number of years was proprietor of the New Home sanitarium which was located on West Morgan street. After leaving Jacksonville, going to Chicago, the building was wrecked to make way for the extension of Dunlap court.

You ride better...you drive better...you feel better in a
Knee Action CHEVROLET

THE Ownership Test is simplicity itself. Chevrolet, through any of its dealers, will gladly lend you a new car. You then drive it over the same routes and in the same way you drive every day. Judge the car by what it does—take the family along and get their comments. When the ride is over you will know the truth about Chevrolet's fine riding qualities, about its remarkable handling ease, about its speed and dash, and great economy, because the car itself can give you nothing but the facts. Chevrolet invites you to make this test because Chevrolet is confident that you will like the 1934 car—the freedom from jolts that Knee-Action brings—the restfulness of shock-proof steering—the deep-cushioned comfort and luxurious appointments of the big Fisher body—the power and getaway of an 80-horsepower engine—the smooth, sure action of weatherproof, cable-controlled brakes—the wonderfully refreshed feeling you enjoy when you are through. In fact, Chevrolet believes that the Ownership Test will prove to your complete satisfaction that the low-priced Chevrolet is the car for you and yours.

Place—Beardstown athletic field.

In an effort to bring back the Striped Jug, symbol of athletic supremacy between Jacksonville and Beardstown high school teams, Coach Frank Walker will lead a squad of football players over to the city by the side of the Illinois river this afternoon, and into what probably will be one of the toughest games on the Crimson schedule this year. The Cardinals, victorious by a 65 to 0 score over Industry here last Saturday, will be up against a team that dropped a potentially strong White Hall team 26 to 6 last Saturday. Illinois School for the Deaf, scheduled to play at Quincy last night, had their game moved up to tonight when inclement weather caused Quincy high school officials to request a change in the schedule. Routt high, scheduled to meet the Quincy Academy Hawks here last night, called off their game because of the downpour of rain, and will meet the Hawks here under the Illinois College lights Oct. 19, weather permitting.

JERSEYVILLE WINS AT GREENFIELD 6-0

Take Advantage of Two Greenfield Fumbles to Score Early in First Quarter of Game Played in Deep Mud During Game.

Greenfield, Sept. 28.—Taking advantage of two Greenfield fumbles which left Jerseyville in possession of the ball deep in Greenfield territory, Jerseyville tonight joined the list of leaders in the Illinois Valley conference with a 6-0 decision over the local prep. Greenfield's two misplays came near the opening part of the game, giving Jerseyville the ball on the Greenfield 15. Cannon passed to Allen across the goal line for the touchdown before the ball had a chance to get slippery in the almost ankle deep mud which covered the field. Playing before a slim crowd kept at home by a rain which fell almost from the start to the finish of the game, the two teams slipped and slid over the field in an effort to get yards. Jerseyville missed a chance for a second touchdown late in the final quarter when they forged into Greenfield territory, a Jerseyville back fumbling the ball on a fourth down on the ten yard line, Greenfield recovering the ball. M. G. Moore, of Alsey, Frank Walker, of Jerseyville, and Marshall of Carlinville were the officials.

WHITE HALL TIES WINCHESTER 6-6

Winchester Scores on Break in Second Quarter After Breaking Up White Hall Threat—White Hall Gets Break in Final Quarter.

Winchester, Sept. 28.—Winchester and White Hall opened their Illinois Valley campaigns here today with a 6 to 6 tie. Winchester converting a fumble into a touchdown in the second quarter, and White Hall a short kick which it recovered into a marker after a desperate fourth quarter rally.

Twice in the early stages of the game White Hall forged its way deep into Winchester territory, but they couldn't break through a stalwart front line defense. They were unable to get their touchdown until only a little over two minutes remained to play.

Winchester, showing surprising speed and aggressiveness, shoved a heavier White Hall line all around when deep in their own territory. They stopped White Hall's opening rush on the seven yard line, and then a little bit later checked the Maroon and Gold again inside the ten yard line.

An error on the part of Kessinger, White Hall safety man, who attempted to handle a Winchester punt, only a few yards from his goal line, set the stage for Winchester's scoring drive. Kessinger fumbled a ball, and Winchester recovered on the White Hall 13. A play failed to yield much ground, but without waiting any longer, Winchester shot a triple reverse on a muddy field and with a wet ball which sent Pile whirling around his left end for a touchdown. Not a White Hall player laying a hand on him.

An accident set the stage for White Hall's touchdown, after they had driven almost the length of the field, only to lose the ball on downs near the Winchester goal. Priest, who had been getting good distance during the rest of the game on punts, sent the boot out of trouble almost straight up in the air, and White Hall recovered about the same place they lost the ball. A forward pass from Kessinger to Scheir put the ball on the Winchester five yard line, and line smashes by Moulton moved it up to the one yard line, from where Kessinger sneaked over the goal line. Both teams failed to convert when line plunges for the extra points failed.

Migkie Heaton, former Manchester high star, was the feature of the game, unrelenting several long runs. The game was played on a sodden field, which was churned up in the center badly during the game. Rain fell in showers, but the field drained well, keeping the ball from becoming too slippery for passes until the final quarter.

Street Kept Clear for Lindbergh

Hundreds of policemen were assigned to the task of keeping Walton Avenue, New York, in the vicinity of the Bronx County building, free of traffic and crowds that might embarrass Colonel Charles A. Lindbergh and make difficult his arrival to testify before the grand jury in the Hauptmann investigation. This picture illustrates how well the police performed this duty.

A lot of St. Louis Cardinal fans, who have remained down in the cellar, or behind the door all summer, moping about the fact that Sam Breadon wouldn't let the radio broadcasters give the game over the air, are coming up to get a breath of fresh air now that the Cardinals are tied with the Giants.

Anyway, it looks as if the Cardinals might have a new name before long. We'd suggest the Four Deans as a good name. Those two boys are just about as valuable as four men, it seems.

It may be that a bit of professional jealousy has hurt the Cards this year more than the fans staying away from Sportsman's park in big bunches. "Wild Bill" Hallahan has a few good losses in his system yet, according to some of the Cardinal fans.

A note came over the printer the other day that so and so was handling the reservations for working members of the press in New York, providing the Giants won the National League pennant.

And if St. Louis does win the National League pennant, what a laugh the rest of the world will have on New York. How long ago was it they were talking about a 5c series?

A lot of football teams from up this way would like to move down in the St. Louis area over the weekend. Routt was rained out here, I. S. D. was rained out at Quincy, and Springfield high and Cathedral postponed their opening battle until Monday night.

BEGIN STATE NET TITLE TOURNAMENT

J. H. S. Netmen Unable to Qualify for Tournament Because of Failure to Hold District Tournament at Macomb.

Champaign, Ill., Sept. 28.—(AP)—Favorite coaches to easy victories today as the annual Illinois State High School Tennis tournament opened. Rain stopped the play before two rounds could be completed but finals in both singles and doubles will be played tomorrow.

The Murphy twins from Tilden High of Chicago breezed through their first two engagements without the loss of a game and are odds-on choice to retain the doubles title which they won last spring. Their stiffest competition appears to be another pair of brothers, the Tetzlaffs of Evanston.

Charles Shostrom, Parker High of Chicago, is a leading contender for the singles title which his brother John won last year.

Seven of the eight second round doubles matches were completed but only four of the battles in the second flight of singles were ended before the rain. Among the singles players who won their second round matches was Green of Rockford.

Doubles results included: first round, Tetzlaff-Tetzlaff (Evanston) defeated Mathewson-Andrews (Greenville), 6-1, 6-2; Allen-Schneider (O'Fallon), bye; Shirk-Cobb (Bloomington) defeated Cook-Cook (Hyde Park), 6-4, 7-5; Steinfort-Brown (Lincoln) won by default from Milne-Murray (Senn, Chicago); Peuker-Cody (Peoria Central) defeated Koch-Rice (Flora), 6-1, 6-1; Helphelstine-Turner (Decatur) won by default.

Second round: McConnell-Regman (New Trier) defeated Allen-Schneider (O'Fallon), 6-2, 6-2; Shirk-Cobb (Bloomington) defeated McElroy-Kalk (Elgin), 6-1, 6-1; Pinkney-Cody (Peoria Central) defeated Merrill-Pointner (Collinsville), 6-4, 6-3; Hess-Kreutenstein (Hyde Park) defeated Turpin-Helphelstine (Decatur), 6-2, 7-5.

Singles results included:
First round: Gordon (Springfield) bye; Rander (Peoria Central), defeated Matthews (Danville), default; Nielson (New Trier) defeated McKay (Greenville), 6-3, 6-4; Coyle (Senn, Chicago) defeated Snyder (Lincoln), 6-1, 6-2; Holm (Rockford), bye; Green (Rockford) won by default from Otey (Harrisburg); Hainline (Rock Island) defeated Shirk (Bloomington), 6-0, 10-8.

Second round:
Dille (Morton, Cleveo) defeated Holm (Rockford), 6-2, 6-3; Green (Rockford) won from Hainline (Rockford) by default.

Jacksonville high school's tennis team was unable to qualify for the state championship round of the high school tennis tournament, because of the failure to hold the district tournament at Macomb. The J. H. S. team twice went to Macomb, but on one occasion no other players showed up, and rain washed away all chances to play the second time the local team made the trip.

Bluffs

Bluffs, Sept. 27.—Mrs. Blanche Herman entertained the E. O. W. two-table bridge club at her home on Wednesday afternoon. High score was won by Mrs. G. Sackey. Second high by Mrs. Hazel Geisendorfer. A two course luncheon was served.

Beatrice and Bernice Lankford twin daughters of Mrs. Helen Lankford were pleasantly surprised at their home Tuesday evening by their school chums in honor of their thirteenth birthday. The evening was spent by enjoying contests and playing games. At a late hour refreshments were served. There were twenty-six guests present.

The members of the sophomore class initiated the freshmen and new faculty members Monday morning in the high school assembly at 9 o'clock. The freshmen girls were dressed in boys clothes and the boys wore dresses and hair ribbons. At 7:30 Monday evening the freshmen were entertained at a party in the gymnasium by the sophomores. Despite the embarrassment everyone had a good time.

The Bluffs high school baseball team played the Arenzville nine at Arenzville Monday and suffered their first defeat by a score of 13 to 10.

Jerome "Dizzy" Dean Pitches Great Ball and Captures His 29th Victory of The Season

St. Louis, Sept. 28.—(AP)—Jerome (Dizzy) Dean, who has backed up his superb confidence by doing practically everything one man could for the Cardinals, pitched the St. Louis club right into a tie with the idle New York Giants for the National League lead with a 4 to 0 shutout of the Cincinnati Reds today.

Pitching with only two days of rest, Dean made the Reds look like the dizzy ones as he limited them to seven hits and struck out one for every blow. His victory was his 29th of the season against seven defeats, and his sixth shutout. He received able backing from his teammates in 12 well placed hits off Benny Frey and Allyn Stout.

As the result of today's victory, the Giants and the Cards must struggle through the last two games of the season on even terms in the closest pennant race in years. St. Louis has two more games against the Reds and Manager Frank Frisch plans to keep tossing Deans at the tail enders until they are ready to cry quits. Paul Dean, Dizzy's younger brother, is slated for mound duty tomorrow and if that doesn't put the Cards ahead Jerome will try it again Sunday.

Jerome's two games are against an aroused band of Brooklyn Dodgers. So effective did the elder Dean pitch today that only four Cincinnati runners got as far as second base and the Reds never succeeded in getting two hits in any one inning. Jim Bottomley got to the keystone corner in the second on a single and a sacrifice. Gordon Slade reached the same spot in the same way in the fourth. Adam Comorosky doubled to start the eighth and got no farther when Dizzy retired three men in short order with two out in the ninth.

Frey was the victim of all the Cardinal scoring in three big innings in which Joe (Ducky) Wuckey, Medwick and Captain Leo Durocher led the attack. Medwick made three hits, including a booming triple that accounted for the first run and he and Durocher each drove in two tallies.

Manager Frank Frisch set the style for his club when he doubled after two were out in the third and rode home when Medwick slammed his three bagger down the right field foul line.

The Cards took it up in the fourth. Bill Delancey opened the inning with

BIG 10 TEAMS TO START PLAY TODAY

Associated Press Sports Writer.
Chicago, Sept. 28.—(AP)—Football, the way they play it in the Big Ten, will go on display for the first time of the season tomorrow with six members of the league in action.

Of the early starters, only Northwestern runs the risk of getting a beating. The Wildcats apparently headed for something better than the disappointment of the 1933 season, meet Marquette, always tough, at Evanston. Although he has a lot of sophomore talent, Coach Dick Hardin is to throw the first game burden on his veterans. Bob Swisher, a small but fleet halfback, is the only sophomore certain to start.

Indiana, playing its first game under the direction of Alvin (Bo) McMillin, probably will have trouble with Ohio University, but figures to win. McMillin suffered a harsh loss when Vernon Huffman, a big triple-threat back, was injured early this week, but has enough veterans to present a sturdy lineup.

Illinois, one of last year's dark horses, will test its power on Bradley. The Illini, with almost the same line up as last year, should win comfortably, although the score may be held down as Bob Zupke tests his reserves. The contest probably will develop into a forward passing battle with the Illini star, Jack Beynon, tossing against Lee Handley of Bradley.

Minnesota, which will be satisfied with nothing less than a Big Ten championship this year, will warm up on North Dakota State College at Minneapolis. The Gophers apparently have everything, seasoned stars, speed, size and strong reserves. Many of the latter will be shoved into the game by Coach Bernie Bierman after Pug Lund and the other regulars set the example.

Iowa, the other 1933 dark horse, also will reach into the Dakotas for opposition, bringing South Dakota's veteran Covetz to Iowa City, probably for a good going over. Chicago's opening opponent will be Carroll College, coached by a former Maroon star, Elmer Lampe. The Maroons will start with three sophomores in the line, Sam Whiteside and Prescott Jordan, guards, and Clarence Wright, tackle.

He kissed her again as he helped her out of the car at her own door, told her he would see her at eight o'clock, and stood in the snow with his hat in his hand, watching her go up the long walk to the house.

It was an odd thing, thought Susan as she left him, that two people could be as utterly unlike as she and Wallace were, and still be in love with each other. They felt differently about almost everything, including the buying of the Country Club house and the wearing of gloves. Wallace liked to wear a car in winter and he couldn't understand why Susan loved to tramp miles through snowy wind-swept streets. He did his only walking on a golf course, and Susan thought that the dullest of exercises. He enjoyed contract bridge which Susan, in her secret soul, knew she would never really understand.

"It must be the law of opposites that makes us attractive to each other," she decided, going up the front steps of the house.

The Brodericks' house stood in a quarter acre of ground on Center Street, and it was the only house in the block that did not have a "Dressmaking" or "Music Taught Here" or "Rooms For Rent" sign over the doorbell.

There it had stood ever since 1880 when Susan's grandfather, Hugo Broderick, had built it. At that time it had been a show place in the city, and it had been the fashionable center of the town. But since then the town had grown by leaps and bounds, and its progress had been toward the south. Center Street was only a dingy thoroughfare on the smoky North Side now, and the place glass windows of the Brodericks' parlor looked out at a beauty shop, a cash-and-carry grocery, and a plumber's establishment on the other side of the street.

Years before the house, with its twenty-two rooms, had been the show place of the city. But it was only a big gloomy old-fashioned house now with its cupolas, its high pointed roof, its soot-blackened stone porches. Beside it stood an elm tree, its bare black branches frozen against the evening sky, and in the middle of the front lawn stood a cast iron deer. A broad drive led from the street to a red brick carriage house in the backyard.

It was the sort of house that looks as if it has had an interesting history. In her childhood Susan had always thought of Dickens' Bleak House or the Tower of London as looking exactly like it. "Anything on earth could happen in a house that looks like this house," she had said to herself hundreds of times.

But nothing ever did happen in it. Nothing unusual, at any rate. That was what was wrong with it in Susan's opinion. Whole days went by with nothing more exciting than the arrival of the morning milk at the back steps or the thud of the evening paper as the newsboy tossed it at the front door.

GIRL IN THE FAMILY
BY BEATRICE BURTON

SYNOPSIS

Tonight when Susan came running up the steps, folded in a square, was lying on the stone floor of the porch. It was an unspoken law of the house that Uncle Worthy Broderick, who paid for it, should see it before anyone else in the family, and so Susan, who usually brought it in, had fallen into the habit of glancing at the headlines on her way to Uncle Worthy with it.

But tonight, as she let herself into the vestibule, he was coming out of the room at the end of the hall, the room that he called his office. Behind him she could see the roll top desk where he kept the receipts and rent books for the Broderick Arms, the rather rundown apartment house that the family owned. He had acted as agent of the estate ever since Grandfather Broderick's death in 1909.

As he came through the hall his hand was outstretched for the paper. "Thank you, Susan," he said in a voice that was surprisingly strong and deep for so small a man as he was, and he took it from her. Then, instead of going back into his office with it as he usually did, he spread it out on the hall table and began to go quickly through its pages as if he were looking for some particular thing in it.

His hands, busy with the printed sheets, were short and broad just as he was. The thick fingers were square at the end, and the knuckles were large like the knuckles of a man who earns his living with his hands. But the skin was soft and the nails were well cared for. He never lifted any tool heavier than a pencil in his life and he was proud of it. He often said: "If there is any aristocracy in America, the Brodericks certainly belong to it! All of us have been professional men—gentlemen—for generations. All of us have read for the law since my grandfather's time!" Susan often wondered whether he gave his occupation as "gentleman" in the city directory.

She wondered too, sometimes, what he did with all the time that was on his hands every day. Certainly the renting and managing of The Broderick Arms, which was practically all that was left of the estate, could not keep him very busy. A good deal, and every now and then he wrote a letter to the editor, or a "bitter" every day after lunch and then lay down to have a long afternoon nap. He and Aunt Edna played Russian Bank a good deal, and every now and then he wrote a letter to the editor, or a "bitter" every day after lunch and then lay down to have a long afternoon nap. Death Comes in Wake of Refueling for Long Hop

Disaster came in the wake of this refueling operation over Portsmouth, Eng., in which tanks of the plane of Sir Alan Cobham, famed English airman, were filled for an attempted non-stop flight to India. Returning to their airfield from Portsmouth, the four occupants of the refueling ship were killed when their craft crashed in flames near Aylesbury, Eng. Cobham also encountered ill-fortune, being forced down at Malta.

"Third Party" Sets Stock Mart Margin Record in Campaign Rules are Moderate for Fall Elections Say Many Observers

By CECIL E. DICKSON

Washington—(P)—A record-smashing array of "third party" attempts, a multitude of issues and a host of colorful candidates feature the campaigns for the November elections. At least 25 parties are in the field—the largest number in the memory of old-time observers.

The Farmer-Laborites in Minnesota and the Progressives in Wisconsin headed by Senator Robert M. La Follette, Jr. are in the van of the side-party movements, with candidates listed in other states. Communists and Socialists also have contestants in many states.

Aside from the main—"new deal"—issue between Democratic and old guard Republican candidates, numerous others, ranging from "redistribution of wealth" to "more stringent marriage and divorce laws" have been raised.

Unusual personalities dot the political scene. Chief among those is Upton Sinclair, with his spectacular campaign for the governorship on his "end poverty in California" platform, young "Bob" La Follette of Wisconsin, who is seeking to return to the senate on the Progressive ticket after dropping his G.O.P. label, and former Governor Theodore G. Bilbo, of Mississippi. Bilbo's election to the senate was assured when he defeated Senator Hubert D. Stephens for the Democratic nomination. There is no Republican contestant.

The sensational come-back James M. Curley, former mayor of Boston, made in Massachusetts for the Democratic gubernatorial nomination; the surprising victory in Ohio of the genial "Vic" Donahey for the right to carry the Democratic senatorial banner, and the Republican senatorial nomination won by former Senator Joseph I. France in Maryland, returned these men to the national political spotlight.

The "third party" drives are being watched closely by G.O.P. and Democratic leaders.

Suit Filed to Hold Up G.O.P. Proceeds

Chicago—(P)—Republican jubilation over a \$125,000 coup on Constitution day at the World's Fair may be subdued today.

A suit to restrain the Fair from disbursing proceeds of the day and asking refunds to 322,000 ticket purchasers was filed in superior court yesterday by Attorney Manning L. Ware.

JUDGE WRIGHT SENDS TWO TO STATE PRISON

Sentences Greene County Pair at Carrollton—Other News Notes

Carrollton, Sept. 28.—Judge Walker W. Wright of Jacksonville, convened Greene County Circuit Court Thursday morning for a short session at which time he passed sentence on the following cases. Edward Egan and Frank Lawson, both of Roodhouse, charged larceny. Lawson last week pleaded guilty. Egan stood trial and was found guilty by a jury. Both were given an indeterminate sentence of from one to twenty years in the state penitentiary at Joliet. George E. Shultz of Hillview, charged larceny, was found guilty by a jury and also received a sentence of from one to twenty years.

Entertained at Party Mrs. Loretta Wood entertained with a theater party Monday night for her twin daughters, Misses Cynthia and Pamela in honor of their twelfth birthday.

Sunday Dinner Guests Mr. and Mrs. Horace Foreman have as Sunday dinner guests Mrs. Emma Osborne and grandson Keith Fuller; Mr. and Mrs. Ira Story of Murrayville; Mrs. W. L. Pence of Walkerville; Mrs. Carl Stiltz, son and daughter of Jacksonville, in honor of Mrs. Eva B. Craycroft of Kansas City, Mo.

The last of the sixteen permanent buildings for the members of D-1684 company, Civilian Conservation Corps, at the southeast edge of this city, will be completed Friday evening and turned over to the government by the contractors.
